TOOLS & PRACTICES

- ▶ Git & GitHub
- ▶ Visual Studio / VS Code
- ▶ RESTful Architecture
- ▶ Cross-browser Testing

EDUCATION

Bachelor of Computer Application

Guru Nanak Institute of Technology
2021

SOFT SKILLS

- ▶ Cross-functional collaboration
- ▶ Problem-solving mindset
- ▶ Detail-oriented debugging
- ▶ Deadline-driven delivery

Professional Summary

Results-driven **.NET Web Developer** with **4+ years** of hands-on experience engineering enterprise-grade web applications for a leading IT consultancy. Proven record of delivering **scalable, high-performance systems** — from full-stack HRMS platforms serving multi-department workflows to RESTful API ecosystems powering mobile integrations. Adept at translating complex business requirements into clean, maintainable code while collaborating across design, QA, and product teams.

Professional Experience

Inner Eye Consultancy Service

Sept 2021 – Present

WEB DEVELOPER — .NET FULL STACK

- ♦ Engineered **5+ production web applications** end-to-end using ASP.NET C#, MVC, and Core — reducing client operational overhead by streamlining multi-module HR workflows.
- ♦ Architected and deployed **RESTful Web APIs** with ASP.NET Core, enabling seamless mobile app integration and cutting cross-platform data sync issues by ~40%.
- ♦ Designed and optimised **complex SQL Server schemas and stored procedures**, improving query execution time and supporting payroll, leave, and performance data at scale.
- ♦ Led responsive UI implementation using Bootstrap and jQuery/AJAX — achieving **100% cross-browser compatibility** and improving user engagement across devices.
- ♦ Diagnosed and resolved **critical production bugs** under tight deadlines, restoring application stability and cutting reported incidents through proactive monitoring.
- ♦ Established **Git/GitHub version-control discipline** across the team, enabling structured code reviews and continuous integration workflows for every release cycle.
- ♦ Collaborated with UI/UX designers and QA engineers in an Agile environment, consistently **delivering sprints on time** across all 5 major client projects.

Key Projects

Human Resources Management System (HRMS)

ASP.NET Web Form · SQL Server · Bootstrap · jQuery · AJAX

Enterprise HR platform with 8+ integrated modules — Employee Self-Service Portal, automated leave & expense workflows, asset tracking, performance reviews, psychometric testing, payroll processing, and exit management — built to scale across multi-department organisations.

Recruitment Portal

ASP.NET Core · Web API · SQL Server · jQuery

End-to-end hiring platform featuring job posting, ATS-style application tracking, interview scheduling, and bi-directional HRMS integration — reducing time-to-hire through automated candidate pipeline management.

Educyte — Educational Platform

ASP.NET MVC · SQL Server · Bootstrap

Course management and student engagement platform enabling instructors to publish content and track learner progress in real time.

IECSL Corporate Website

ASP.NET MVC · jQuery · AJAX

Dynamic company website with seamless AJAX-driven data handling and improved UX — delivered as a public-facing showcase for the consultancy's services.
